

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

### EDITOR'S NOTE.

---

By comparing the present issue of this Work with former issues, it will be seen that certain modifications have been introduced into it. These changes have been made in order to make it more fully representative of the progress of Insular public affairs, in their more general aspect, and more especially of the continued development of the principle of Local Government. It is believed that, in its present form, the Work will be more generally useful, not only to the members and officials of the various public bodies, but also to the Insular public generally.

\* Douglas Southern Electric Railway year ends on 31st October. † Eight months, 1st May to 31st December, 1894. ‡ Information not available.  
 ‡ Exclusive of Snaefell Electric Railway. ¶ The Isle of Man Tramways Company being in process of liquidation, details of their working were refused by the Liquidator; and the returns given, consequently, show the results of the Douglas Southern Electric Railway only.  
 \*\* This large apparent increase is caused by a change in the manner of counting passengers carried. Return passengers are now counted as two.

## EDITOR'S NOTE.

---

By comparing the present issue of this Work with former issues, it will be seen that certain modifications have been introduced into it. These changes have been made in order to make it more fully representative of the progress of Insular public affairs, in their more general aspect, and more especially of the continued development of the principle of Local Government. It is believed that, in its present form, the Work will be more generally useful, not only to the members and officials of the various public bodies, but also to the Insular public generally.

Government Office,  
Douglas, June, 1904.

\* Owing to the present mode of calculating the revenue from Tea, Tobacco and Cigars, and Wines, it is not possible to give the quantities actually entering into consumption in the Island. As no account is now kept at the Custom House of the quantities of Imperial duty-paid Spirits, Coffee, or Chicory entering the Island, no return as to the latter two can be made, while the figures relating to Spirits show less than the quantity actually consumed in the Island.

\* Douglas Southern Electric Railway year ends on 31st October.

† Exclusive of Snaresell Electric Railway; ‡ The Isle of Man Tramways Company being in process of liquidation, details of their working were returned by the Liquidator; and he refers given, consequently, show the results of the Douglas Southern Electric Tramway only.

\*\* This large apparent increase is caused by a change in the manner of settling passengers carried. Former passengers are now counted as two.

†† The returns of the Manx Electric Railway Company are for the period included between the 18th August, 1902, and the 30th September, 1903.

### EDITOR'S NOTE.

---

By comparing the present issue of this Work with former issues, it will be seen that certain modifications have been introduced into it. These changes have been made in order to make it more fully representative of the progress of Insular public affairs, in their more general aspect, and more especially of the continued development of the principle of Local Government. It is believed that, in its present form, the Work will be more generally useful, not only to the members and officials of the various public bodies, but also to the Insular public generally.

Government Office,

Douglas, July, 1905.

\* Douglas Southern Electric Railway year ends on 31st October. † Information not available.

‡ Exclusive of Spaeftell Electric Railway. § The Isle of Man Tramways Company being in process of liquidation, details of their working were refused by the Liquidator; and the returns given, consequently, show the results of the Douglas Southern Electric Tramway only.

¶ This large apparent increase is caused by a change in the manner of counting passengers carried. Return passengers are now counted as two.

§ The returns of the Manx Electric Railway Company are for the period included between the 18th August, 1902, and the 30th September, 1903.

## EDITOR'S NOTE.

---

By comparing the present issue of this Work with former issues, it will be seen that certain modifications have been introduced into it. These changes have been made in order to make it more fully representative of the progress of Insular public affairs, in their more general aspect, and more especially of the continued development of the principle of Local Government. It is believed that, in its present form, the Work will be more generally useful, not only to the members and officials of the various public bodies, but also to the Insular public generally.

\* Owing to the present mode of calculating the revenue from Tea, Tobacco and Cigars, and Wines, it is not possible to give the quantities actually entering into consumption in the island. As no account is now kept at the Custom House of the quantities of Imperial duty-paid Spirits, Coffee, or Chicory entering the island, no return as to the latter two can be made, while the figures relating to Spirits show less than the quantity actually consumed in the island.

\* By the extension of the boundaries of Douglas, in 1903, the population of Douglas was increased by about 2,000, and the populations of Onchan and Braddan (Onchan mains) were decreased by that amount. The population of the extended borough of Douglas is stated to be 21,283, and that of Onchan 1,842; and the birth and death rates given above are on the basis of the census populations. On the present populations, the birth-rate in Douglas is 26·3 and the death-rate 21·0; and in Onchan 27·1 and 8·1 respectively.

\* This amount is the proportionate payment from 1st Jan. to 26th Feb., at which date the old arrangement ceased.

† The reduction of capital here shown is a result of the purchase of the Manx Northern and Fockdale lines by the Isle of Man Railway Company.

‡ This item ceased with the purchase of the line by the I.O.M. Railway Company.

The figures for this year include the receipts and expenses of the Ramsey and Fockdale lines since the 10th April only, and, therefore, are not a fair comparison with the preceding year.

\* The Isle of Man Tramways Company being in process of liquidation, details of their working were refused by the Liquidator; and the returns given, consequently, show the results of the Douglas & Southern Electric Tramway only.

† This large apparent increase is caused by a change in the manner of counting passengers carried. Return passengers are now counted as two.

‡ The returns of the Manx Electric Railway Company are for the period included between the 18th August, 1902, and the 30th September, 1903.

---

By comparing the present issue of this Work with former issues, it will be seen that certain modifications have been introduced into it. These changes have been made in order to make it more fully representative of the progress of Insular public affairs, in their more general aspect, and more especially of the continued development of the principle of Local Government. It is believed that, in its present form, the Work will be more generally useful, not only to the members and officials of the various public bodies, but also to the Insular public generally.

Government Office,

Douglas, June, 1907.

\* Owing to the present mode of calculating the revenue from Tea, Tobacco and Cigars, and Wines, it is not possible to give the quantities actually entering into consumption in the Island. As no account is now kept at the Custom House of the quantities of Imperial duty paid Spirits, Coffee, or Chicory entering the Island, no return as to the latter two can be made, while the figures relating to Spirits show less than the quantity actually consumed in the Island.

\* This amount is the proportionate payment from 1st Jan. to 28th Feb., at which date the old arrangement ceased.

† The reduction of capital here shown is a result of the purchase of the Manx Northern and Foxdale lines by the Isle of Man Railway Company.

‡ This item ceased with the purchase of the line by the I.O.M. Railway Company.  
§ The figures for this year include the receipts and expenses of the Ramsey and Foxdale lines since the 18th April only, and, therefore, are not a fair comparison with the preceding year.

\* The Isle of Man Tramways Company being in process of liquidation, details of their working were refused by the Liquidator; and the returns given, consequently, show the results of the Douglas Southern Electric Tramway only.

† This large apparent increase is caused by a change in the manner of counting passengers carried. Return passengers are now counted as two.

‡ The returns of the Manx Electric Railway Company are for the period included between the 18th August, 1902, and the 30th September, 1903.

\* These drafts from the Irish Constabulary are now discontinued. In their place, the permanent Insular force has been increased, and men from the rural districts are drafted into Douglas for the tourist season.

† These men regulate the traffic on the Douglas Landing Pier, and are under the control of the Insular Harbour Board. Only four of these men are employed for this purpose in the winter months.
